

CODE OF CONDUCT

1 PURPOSE

At Centamin, we are committed to developing resources in a sustainable way that protects and empowers people, fosters socio-economic development, safeguards the environment, and creates lasting benefits through acting responsibly as individuals and as a business with the highest standards of ethical conduct.

This Code of Conduct (the “Code”) sets out Centamin’s key principles and expectations for how all persons working for, working with, or representing Centamin must behave in their day-to-day activities. The Code reflects our Purpose, *to create opportunity for people through responsible mining*, and our Values – *Protect, Ownership, Innovate, Educate and Passion* – which should guide us in everything we do.

Our Values guide every action we take. They’re at the heart of the Code and our workplace culture.

The Code expresses Centamin’s expectations and guides the decisions we make in general terms and is supported by a range of Company Policies and site-specific procedures that set out further commitments and intentions. Our Code:

- (a) Sets expectations on how to do business safely, responsibly, ethically and legally
- (b) Reminds us of the Values and key principles to consider when making decisions
- (c) Provides guidance on how to raise concerns, without fear of retaliation.

At Centamin we all commit to the Code – regardless of where we are or what we do. All of us are accountable for living up to our Values, incorporating the Code into our lives and encouraging our colleagues to do the same.
